finish techniques

While the distressed look hasn't waned in popularity polls, your interest in established antiquing styles continues to evolve, and Decorá offers choices for your level of authenticity. Enjoy time-worn sophistication with finish techniques from Decorá.

reserve & *reserve plus*

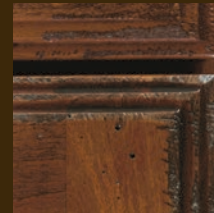

Reserve's light distressing uses wormholes, tiny dents and light signs of wear. Reserve Plus adds more aggressive techniques like rasping and splits, artfully blended for a beautifully aged look.

vintage & *vintage plus*

Vintage is a light sand-through to create a subtle, time worn look. Vintage Plus is an aggressively burnished sand-through technique applied to corners and raised profiles, exposing the underlying wood.
